

P-SERIES OPTIONS

The energy efficient P-Series incorporates excellent insulating properties where the heat reflecting glass surface creates a cooler workplace while maintaining the heating efficiency of the oven. The excellent ergonomic design of the oven with its solid, robust and compression-spring door construction along with the stainless steel, bead-blasted handles provides a good work environment as does the optimum height between decks.

OPTIONS P-SERIES

Dimensions

1. Premium design

Exclusive optional equipment with specially designed canopy and practical pull-out shelving with integrated bowls and an intelligent control panel with smart, built-in features such as the ability to program the oven by simply pushing a button for increased or decreased work loads depending on orders. The premium design also offers the ability to use a preset weekly schedule in which time and temperature can be set for seven days.

2. Digital control panel SD-Touch

Intelligent panel with unique user interface produced for pizza ovens. Simple operation with options for advanced or simplified operation. Incorporates weekly scheduling with the ability to program for all seven days of the week. Individual adjustments per deck.

3. Separate connections per deck

Separate electrical supply per deck for separate feeding and lower connection power.

4. Choice of colors

The oven is available in a red or black finish.

5. Unassembled deck

The oven is shipped unassembled. Recommended for installation in tight spaces.

6. Double glazed oven door

Makes the oven more heat efficient and gives a better working climate in the restaurant kitchen.

P200

Width: 44 1/8"
